

**The first end-to-end
intelligent process
automation platform,
purpose-built for insurers.**

Build Agility. Accelerate Transformation.

Neutrinos empowers insurers with our AI-powered intelligent automation platform & a library of pre-built accelerators to become agile, high-performing businesses.

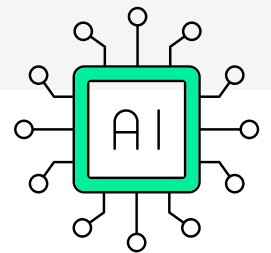

Unlock agility: Drive agility across the enterprise from underwriting, claims, and distribution processes.

Reduce Time-to-Value: Maximize ROI on tech investments and lower acquisition and servicing costs.

Reinvent Experiences: Create engaging experiences that increase customer satisfaction and reduce churn.

Improve Speed: Quickly introduce new business lines, products, and channels; and enter new markets faster and easier

Spur Innovation: Accelerate digital initiatives, drive business-IT alignment, and lower technical debt

Neutrinos Intelligent Process Automation Platform

The quiet catalyst for your digital transformation; tackle complex challenges with our purpose-built intelligent process automation platform.

A screenshot of the Neutrinos Intelligent Process Automation Platform interface. The interface is divided into several sections. On the left, there is a navigation menu with categories like Model, Process, Styles, Pages, Viewers, and Input. The main area shows a form for 'Insured Info' with fields for Name, Email, Gender, and Mobile Number. Below this is a section for 'Beneficiaries' with fields for Name and Relationship. At the bottom, there is a 'Case Decision' section for 'James Allen' with a dropdown menu for 'Please select the decision' and a 'Risk View' table. The table has columns for RISK, SOURCE, CATEGORY, BENEFITS, AIS, UW DECISION, and ACTION. The table contains one row with the following data: RISK: Fracture both Arms, SOURCE: Interactive, CATEGORY: Medical, BENEFITS: Life, AIS: Accept, UW DECISION: --, ACTION: --. There are also buttons for 'Compose FB56', 'Select', and 'Add Risk'.

Why Choose Neutrinos

Business Outcomes Focussed: We build trust through understanding your unique challenges, aligning with your objectives, and fearlessly driving results. Our approach and passion for delivering business impact helps you achieve nimble, efficient operations and world-class customer experiences.

Insurance Expertise that Delivers Results: Our team combines deep insurance industry experience with proven technical prowess to tailor digital automation solutions that address the evolving needs of insurers. Gain peace of mind with a team committed to accelerating your business agility and enhancing the customer experience.

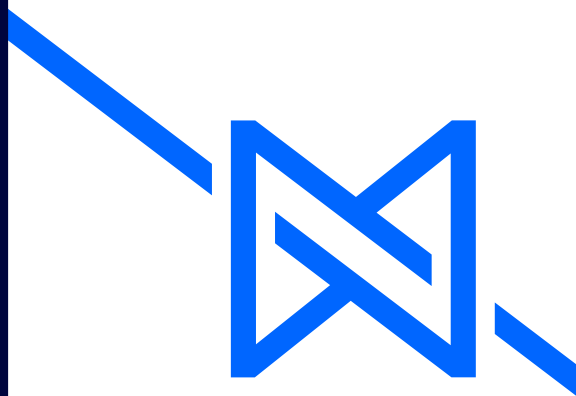

Building on Past Investments: Our coreless transformation approach preserves your valuable technology while externalizing core functions. This API-driven solution seamlessly integrates with existing systems, enabling rapid market adaptation, new product launches, and AI-powered automation; maximizing ROI on current infrastructure.

Comprehensive Transformation Approach: Fixing challenges piece-meal and in one part of the enterprise and disparate solutions scattered across the enterprise only make digital transformation harder for insurers. Our enterprise-wide reinvent approach and AI-powered digital automation platform can transform processes across multiple disciplines ranging from distribution to underwriting to claims.

Accelerate your reinvention
